

CAN YOU IMAGINE having to walk for miles and miles back and forth to school?

Would you even bother to go? So many girls around the world face this daunting trek each day. It's dangerous and difficult, and many just can't find a way to go at all.

But for every \$100 raised, you can help make a child's life so much easier. With a Dream Bike, a girl will be able to get to school safely, easily and more often.

SIMPLE FUNDRAISING IDEAS

- Start a gym challenge, and have participants raise \$1 for every mile they pedal, run or climb.
- Hold a bike safety class at a local school. Your police department is a great source of information. Afterward, show the "Dream Bike" video to your class: www.ChildFund.org/DreamBike
- Ask a local retailer to donate a bike, and sell raffle tickets to win!
